E. J. Sias, The Pep-Primed Progress Promoter With A Punch.

There is nothing arm-chairy about Ernest J. Sias, Chautauqua's Community Development Man. Sias is a man of deeds—the best bet of Chambers of Commerce and Boards of Trade throughout the country when they feel the need of a stick of dynamite to loosen things up. Sias makes the business of town-building, and of improving things generally, the most vividly interesting subject you ever listened to. Sias is sure fire because he is loaded. He will lodge some shot under your hat where it will stick like a burr.

Not alone a practical man of affairs, with an insight that lends a punch to his methods, E. J. Sias is a platform speaker without a prototype, crisp, witty, logical, sensible—every word is a hammer-stroke on the nail he is driving home.

"Home Town Preparedness" is Mr. Sias' subject at the Chautauqua. It will leave you with a sense of power to do anything, and do it in a hurry. And most of all, with a resolve to work for the home town.

Hear Sias on the opening night of Chautauqua. It will be a big occasion.

The school yard presents a fine appearance and the various growth should be allowed to remain to fall down and form a cushion on which the pupils can roll and tumble and avoid bruises and breaks. Nothing like sacrificing beauty to safety.

Rowdies appear to be getting in the ascendancy again. Almost every night there is more or less of a kick up and general wild west performances on the streets and the practice of racing out of town and shooting and whooping like Comanches is conducive to peace and sleep. The police force should be augmented.

J. B. Holzgrafe, daughters Misses Bertha and Lilly and Miss Minnie Drier and Mrs. H. Z. Borgelt of Havana, Ill., came in the Holzgrafe car last week for a visit to Jno. Vanderveen and family. Mr. Holzgrafe says crops in Illinois are about the same as here except that our corn appears to be further advanced.

Following is an extract from a letter Mrs. T. P. Wood of Kansas City to Mrs. J. F. Stowers, who is visiting her daughter Mrs. Roy Durbin of Ft. Collins, Colo. A party of six of us motored to Denver after 7 o'clock p. m. and arrived there about 11. A lovely ride in the moonlight. Denver has Kansas City beat when it comes to fine stores and picture shows and such a display of electric lights I never saw only at the World's Fair. We took in the Elitch Garden and that night went to Electric Park and started back home Saturday a. m. at 8 o'clock, reached Fort Collins at 11 a. m. We took one trip over the road built by the Colorado Convicts and spread our lunch at one of the most picturesque places I ever saw, a small stream and water falls as clear as crystal, a tributary to the big Poudre River. It is very high and awfully angry looking. I climbed the smallest mountain but, it would take one a week and maybe more to get over some of them in the distance which are covered with snow. We spent the 4th at Greeley and our next trip will be to Cheyenne "Frontier Day."
